

SCL

Product Profile

Why SCL

Technology is everywhere

Education is witnessing unparalleled growth and students are increasingly using desktops and mobile devices such as smartphones and tablets to access the virtual classroom. There has been a transition in school administration and the easy-to-use technology solution is doing wonders to face the challenges and improve the way schools are managed.

Increase daily productivity

SCL helps administrators of schools boost their productivity and reduce the time and effort required to manage schools and accurately organize school data

Collaborate beyond classrooms

As a web and mobile- based interactive application, it connects schools, students, and staff seamlessly to manage school processes efficiently and reduce the workload drastically

Save money & improve student engagement

SCL makes the work and functioning of school processes extremely easy to save time and cut down the administrative costs and focus on improving student success. By implementing school management software, you will focus on improving the quality of education, reach desired academic goals within specific time and cost perimeters. The final outcome is that all the constituents-students, teachers, staff, administrators and parents comes out a winner - which just may be school management's best benefit of all.

Complete automation for smarter decisions

SCL helps in organizing various aspects of school system including student, teachers, parents, staff, admission, reportcard, clinic, reporting and so on. The system helps administrators to access, manage, and analyze data and processes for quick and well-informed decision-making

Save paper & reduce teacher workload

SCL is ahead of the curve, providing full automation of all the functions of school administration and achieves the goal of paperless administration.
